

JOIN US FOR OUR NEW **ACHIEVEMENT TEAMS 2.0** CERTIFICATION

February 23 - 24, 2026 | Paso Robles, CA

Achievement Teams Certification 2.0 – a refreshed and reimagined version of our original certification that takes collaboration, data-driven instruction, and student success to the next level! Whether you're new to Achievement Teams or looking to deepen your practice, Certification 2.0 is designed to inspire, empower, and energize educators at every level.

What are Achievement Teams?

The Achievement Teams process is an experiential, collaborative four-step protocol that focuses on collective teacher efficacy. All of the components of Achievement Teams are intentionally aligned to those teacher and leadership profiles that have the greatest impact on student achievement.

The process provides a structure for teachers to specifically identify areas of student need and collaboratively decide on the best instructional approach in response to those needs. When schools and school systems break down the silos of individual practice, we can create truly professional teams of educators who continuously reflect on and improve their practice.

Why Attend a Certification Training?

Attendees learn more about this collaborative protocol and walk away with the tools and resources to support Achievement Teams implementation back at their schools and districts.
